Not yet other than locating the standards. On my list to get to this week to start but the Solvay compounds have kept me busy.

Mark

Hi Mark & James,

Any chance that you have started checking on this? Our lab has started doing similar work as we discussed. Please let me know. Thanks.

Best Regards,  
Lam

External email. Confirm links and attachments before opening.

FYI I found both the PFECA-A and the PFECA-F in my lab neat. I have very little of the PFECA-A but enough to do this work. I have several grams of PFECA-F so I should be fine.

Thanks. Mark

Hi Mark & James,

We do have these standards in our lab and please let me know if you need me to send you some (0.1% in water). I also want to thank you both for speaking with me and agreeing to further investigation on this isomer issue. Thanks.

Best Regards,  
Lam
